Asset Strategy Manager	Support the development of the asset strategy for the designated asset type and develop specific sections and substrategies. Develop and oversee 10 year asset master plans for specific areas, including cost, risk, work scope, condition and performance. Strategic planning of capital and operational expenditure throughout the asset life-cycle for a designated asset type. This will include stakeholder engagement, and securing of funding through the business plan. To provide leadership for a designated sub asset type within LU (e.g. financial, technical and commercial aspects). Develop and manage appropriate asset models and use these to predict the future needs of the designated asset type. The role holder must also look to make savings wherever possible and ensure that money saving is a continual theme of asset strategy in LU. This role is also a contributor to driving a safety culture across the whole of London Underground and TfL.	£60,000 - £64,999	£1 - £4,999	N/A	NIL	0
