-	management, it's systems and solutions, as well as continuously improving the MPD approach to portfolio management. The	l	1			
	role is accountable for identifying the cost saving, clash and interface management and optimisation available through the	ĺ	1	1		
	whole portfolio view. The role is a core part of the portfolio management decision making process, and builds and produces	Ì	1			
	a suites of data and reporting that supports the senior management portfolio management decision making. The role also	Ì	1			
	assists the Pipeline Assurance Manager in planning the pipeline assurance activities and accountable for the smooth and	Ì	1			
	complaint movement of projects between Sponsor/City Planning and LU.	1	1	1	I	

Possession Planner	Effectively plan and deliver possessions, achieving the highest levels of performance, safety and customer satisfaction. The role facilitates the detailed planning and delivery of works in all LU possessions, and requires a high level of technical planning and engineering expertise. By working in collaboration with others you will be accountable for the safe planning and	£65,000 - £69,999	N/A	N/A	NIL	0
	delivery of LU possessions					
Principal Analyst	To manage and undertake studies using strategic models (*) and other analytical techniques. The models are essential to: forecast and assess the future multi-modal demands on London's transport system, • to appraise TfL's multi-billion pound investment plans (including major schemes e.g. Crossrail 2 & Silvertown Tunnel), • to assess the financial mitigation for planning applications • inform TfL business & delivery planning priorities • inform the Mayor and TfL on funding, policies and projects including the Mayor's Transport Strategy. * including demand, land-use, public transport, highway & cycling models	£65,000 - £69,999	£1 - £4,999	N/A	NIL	0
2: : IA BI	as well as bespoke mathematical spreadsheet models and economic appraisal tools depending on the role.	005 000 000 000	04 04 000	N1/A	.	
Principal Area Planner	Influence and shape new developments, local planning policy and area plans to meet key transport outcomes. To ensure TfL's objectives and London Plan policies are met through TfL's involvement in land use planning matters referred to the Mayor by local planning authorities and planning applications affecting the highways network referred to TfL directly by London boroughs. To lead the development and dissemination of best practice in relation to TfL's role within the planning process and work closely with officers in the GLA and boroughs and with developers on major applications to secure desired transport outcomes and mitigations and protect TfL assets. To support the GLA in the preparation and implementation of Housing Zones, area planning frameworks and masterplans to embed more sustainable travel patterns and ensure transport requirements and investment priorities are understood.	£65,000 - £69,999	£1 - £4,999	N/A	NIL	1
Principal Commercial Planner	Working within the Commercial Development Planning team and in partnership with a range of stakeholders, this role supports the delivery of TfL's development sites across the Capital. Responsible for providing high quality planning advice and support, representing Commercial Development Planning in a variety of servitive discussions and negotiating with local authorities, central government, the Greater London Authority and across TfL to ensure the successful delivery of TfL sites and the thousands of homes and jobs across London. Provide planning intelligence and advice, ensure alignment of objectives, maximise wider public benefits and define Commercial Development's approach to site identification, feasibility, selection and delivery.	£65,000 - £69,999	£1 - £4,999	N/A	NIL	0
Principal Consents & Environment Advisor	Progress and obtain any necessary town planning and environmental related consents as and when required by any part of the TfL organisation. Provide advice across TfL on consents issues and raise awareness of the need for consents and give advice on the process/timescales for progressing such consents. This role supports the whole of the TfL business and requires the post holder to demonstrate a clear and broad understanding of the wider TfL business needs in each of the operational areas. The post holder will be required to work closely with different teams across TfL-including co-location as necessary - and have the drive and enthusiasm for a varied and challenging work programme.	£65,000 - £69,999	£1 - £4,999	N/A	NIL	1
Principal Engineering Leader	The role holder ensures the performance, motivation and development of staff within their organisational unit, in order to deliver high value, cost effective engineering capability to TfL. They will typically manage a team of Principal Engineers and Senior Engineers. Applies extensive expertise in the field of engineering which is deployed in the analysis and resolution of highly complex or network-wide technical problems, providing authoritative technical or functional leadership, advice and expertise to senior internal and external stakeholders, interpreting technical strategy and company policy to satisfy business requirements. Applies commercial thinking to the development and implementation of solutions, demonstrating a good understanding of the business operation and requirements when formulating solutions and recommendations and providing constructive challenge to deliver the right outcomes for the business	£65,000 - £69,999	N/A	N/A	NIL	5
Principal Experience Design Lead	Experience Design Leads play a key role in our growing team. They join a highly collaborative and creative area of TfL, which is responsible for designing world-class digital product. The role includes: 1. Service Design – Experience Design Leads shape and lead strategically significant service design projects, partnering with product managers, product owners and other key stakeholders, to: – identify challenges and opportunities for the end-to-end experience of digital products – engage stakeholders in workshops, research and design activities – develop a shared future vision for the experience of a service – support stakeholders in identifying, prioritising and delivering feasible aspects of the vision by shaping and planning work packages, informing future roadmaps or planning changes as part of continuous improvement. – lead multidisciplinary project teams throughout the design process, from discovery to delivery 2. Hands-on expertise and consultancy in one or several of the foll	£65,000 - £69,999	£1 - £4,999	N/A	NIL	1
Principal Network Manager	The post holder is responsible for the performance of London's road network by designing, maintaining and enhancing appropriate road traffic and pedestrian strategies and traffic systems on London's streets to achieve agreed outcomes in line with the Mayor's Transport Strategy (MTS). The post holder uses a variety of tools and techniques that include, but are not limited to, the Urban Traffic Control (UTC) system, Split Cycle Offset Optimisation Technique (SCOOT) and traffic modelling (eg LINSING, TRANSYT and VISSIM). This work includes the development of signal schemes including the design, modelling, simulation and commissioning on the UTC system; setting, auditing and approving timings to reflect the MTS and development of network strategies and control techniques. The post holder supports the development and design of schemes which alter or enhance the road network and provides expertise and support to real-time road network management. The post holder may specialise in any one particular area of the team's work.	£65,000 - £69,999	£1 - £4,999	N/A	NIL	1

Senior Development Cost Manager	As one of the largest landowners in London, TfL has a protfolio of c.80 sites across the Capital that it is looking to bring forward over the next ten years. This is an opportunity to play a key role in shaping London's future. There is a broad range and scale of assets within the portfolio which presents the opportunity to work on some of the most exciting and influencial projects across London. The sites are of hugh importance to London as a whole and are an opportunity to raise funds and align with TfL's wider goals to support the growth of jobs and housing in London. To improve viability and drive cost out of our projects we intend to bring a specific cost management capability into the TfL Property Development (PD) team. This full-time role will have programme wide responsibilities for challenging the cost assumptions included in all our projects, maintaining a database of cost information, and ensuring a co-ordinated approach to cost management across PD.	£65,000 - £69,999	£1 - £4,999	N/A	£1 - £999	0
Senior Enforcement and Prosecutions Manager	The role holder will drive TfL and Mayoral objectives and priorities by setting the strategic direction for the contractual framework of TfL with Bus Operating companies. They will ensure the development of a safe, sustainable and commercially-efficient bus network, translating high-level priorities and market led best practice into initiatives to continually improve the network. They will harness opportunities to exploit and integrate emerging technology to the bus fleet, improve safety and drive efficiencies to provide enhanced services to London.	£65,000 - £69,999	N/A	N/A	NIL	6
Senior Engineer	Applies significant expertise in the field of engineering which is deployed in the analysis and resolution of medium complexity or network-wide technical problems, providing technical guidance, advice and expertise to senior internal and external stakeholders, interpreting technical strategy, checking or producing designs, associated drawings, information, calculations and research	£65,000 - £69,999	£1 - £4,999	N/A	NIL	0

Ens	Senior TfL Operating Model Manager	integrity and evolve the integrated TfL operating model in order to maximise benefits and ensure it continues to be fit for purpose and meets future business plans. This is a critical role in ensuring TfL's continuing transformation. This role works within the Transformation Directorate which focuses on pan-TfL change initiatives, which deliver increased efficiencies and effectiveness across TfL and contributes towards TfL's overall savings target, in line with a work bank agreed by ExCo.	£65,000 - £69,999	N/A	N/A	NIL	0
necessary to achieve and maintain the working timetable, on a daily basis. Ensuring the prompt distribution of accurate train service information to all relevant stakeholders, as well as effectively managing the transition between traffic hours and engineering hours. Service Controller (L1) Proactively manage the train service safely and efficiently in the best interests of customer service, doing all that is necessary to achieve and maintain the working timetable, on a daily basis. Ensuring the prompt distribution of accurate train		The role holder will assure that all changes, affecting 1500+ technology applications are tested and released into live service operation without disruption, minimising the costs and reputational implications of poorly implemented changes and projects. The role holder ensures that all change activities are implemented in line with the appropriate technical, regulatory and security standards. The role holder is responsible for implementing improvements to these transition service processes and ensures they continue to remain aligned with the wider Technology and Data service operations regime. The role holder is accountable for the following activities as limited examples: change management, release management, post-implementation testing and service acceptance, configuration management and project transition of services.					9
