Engineer (Band 2)	Provides technical analysis and diagnoses within an organisation unit to assist in the production of designs, drawings, information, calculations and ongoing improvement of transport system operational performance, using defined procedures	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 2)	under limited supervision Provides technical analysis and diagnoses within an organisation unit to assist in the production of designs, drawings, information, calculations and ongoing improvement of transport system operational performance, using defined procedures	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 2)	under limited supervision Provides technical analysis and diagnoses within an organisation unit to assist in the production of designs, drawings, information, calculations and ongoing improvement of transport system operational performance, using defined procedures	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 2)	under limited supervision Provides technical analysis and diagnoses within an organisation unit to assist in the production of designs, drawings, information, calculations and ongoing improvement of transport system operational performance, using defined procedures	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 2)	under limited supervision Provides technical analysis and diagnoses within an organisation unit to assist in the production of designs, drawings, information, calculations and ongoing improvement of transport system operational performance, using defined procedures	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 2)	under limited supervision Provides technical analysis and diagnoses within an organisation unit to assist in the production of designs, drawings, information, calculations and ongoing improvement of transport system operational performance, using defined procedures	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	under limited supervision Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	N/A	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	N/A	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required. Left service on or after 31 March 2021. Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides technical analysis and diagnoses within an organisation unit to assist in the production of designs, drawings,	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	information, calculations and ongoing improvement of transport system operational performance, using defined procedures under limited supervision Provides specialist technical services within an organisation unit by producing designs, associated drawings, information,	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information,	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information,	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information,	£50.000 - £54.999	£1 - £4.999	N/A	NIL	0
Engineer (Dalid 9)	calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required	200,000 - 204,555	L1 - L7,333	IN/C	MIL	

Engineer (Band 3)	Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required	£50,000 - £54,999	N/A	N/A	NIL	0
Engineer (Band 3)	Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	£1 - £999	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	N/A	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	N/A	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information, calculations and enabling improvement of transport system operational performance in line with policies, technical strategies	£50,000 - £54,999	N/A	N/A	NIL	0
Engineer (Band 3)	and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information,	£50,000 - £54,999	N/A	N/A	NIL	0
Engineer (Band 3)	calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information,	£50,000 - £54,999	N/A	N/A	£1 - £999	0
Engineer (Band 3)	calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information,	£50,000 - £54,999	N/A	N/A	NIL	0
Engineer (Band 3)	calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information,	£50,000 - £54,999	N/A	N/A	NIL	0
Engineer (Band 3)	calculations and enabling improvement of transport system operational performance in line with policies, technical strategies and local procedures as required Provides specialist technical services within an organisation unit by producing designs, associated drawings, information,	£50,000 - £54,999	£1 - £4.999	N/A	NIL	0

Principal Sponsor						

8: : 10		050 000 054 000	04.000	Taura.	Ism	
Principal Sponsor	Lead a team to sponsor defined infrastructure projects and programmes under the Capital Investment programme and deliver the benefits and outcomes defined in the asset strategies and plans. To develop an optimised and fully coordinated programme that maximises benefits, meets customers needs and seeks commercial opportunities. Working closely across the business and with stakeholders to understand constraints and identify opportunities. Responsible for managing the professional development of direct reports.	£50,000 - £54,999	£1 - £4,999	N/A	NIL	4
Principal Technical Planner	Influence and shape new developments, local planning policy and area plans to meet key transport outcomes. To ensure TfL's objectives and London Plan policies are met through TfL's involvement in land use planning matters referred to the Mayor by local planning authorities and planning applications affecting the highways network referred to TfL directly by London boroughs. To lead the development and dissemination of best practice in relation to TfL's role within the planning process and work closely with officers in the GLA and boroughs and with developers on major applications to secure desired transport outcomes and mitigations and protect TfL assets. To support the GLA in the preparation and implementation of Housing Zones, area planning frameworks and masterplans to embed more sustainable travel patterns and ensure transport requirements and investment priorities are understood.	£50,000 - £54,999	£1 - £4,999	N/A	NIL	1
Principal Town Planner	Responsible for ensuring TfL's strategic objectives contained in the MTS and the London Plan policies are met through the ongoing development of Crossrail 2. Responsible for the management of land use planning matters arising throughout the scheme development process. Responsible for work with colleagues across TfL Planning to prepare relevant land use policy and planning documents, articulating how growth could be generated as a result of Crossrail 2.	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Principal Transport Modeller	The postholder is a subject matter expert in one or more areas of traffic modelling. The work includes the development of signal schemes primarily focused on modelling, simulation, design, audit and network impact assessment. The postholder provides industry leading technical knowledge of one or more traffic (including pedestrians and cyclists) modelling packages and to ensure the development and use of these packages fits with the strategic aims of the Mayor. Through the efficient and effective use of London's Traffic Control system, congestion management, modeling, and other tools, maximise the performance of London's traffic signal network for Transport for London (TfL) and specifically Journey Time Reliability (JTR) on Mayoral Corridors. The post holder may specialise in any one particular area of the teams work, in this instance, primarily traffic modelling and scheme design.	£50,000 - £54,999	£1 - £4,999	N/A	NIL	0
Principal Transport Planner	To provide strategic transport planning and analysis to develop strategies, policies and plans for Public Transport to meet the objectives of the Mayor's Transport Strategy. To develop strong business case analysis for changes to policy and long term plans for Public Transport Service change, in collaboration with scheme sponsors, which support TfL's strategic objectives and which optimise customer benefit, taking into account value for money, available resources, operational constraints and stakeholder priorities. Input into developing the TfL Business Plan and investment programme, and ensure the co-ordination and integration of transport and land-use planning issues, including identifying and influencing alternative funding opportunities. To develop Service Planning analytical and reporting capabilities to better understand operational performance, environmental impact and passenger demand, through development and research of new tools, techniques and performance indicators.	£50,000 - £54,999	£1 - £4,999	N/A	NIL	1
